

# Legislative Invasion of Privacy

The Legislative Defendants have added power to tax

**every Sovereign American's income** (*"from whatever source derived"*)

**"without apportionment"** *among the several states*;

thereby defying the aforementioned Constitutional restriction -

ALL Direct Taxes must be *"apportioned"* according to State *"Census"*:

**Apportion**: *Divide something among many: to divide and allocate something among different people or groups*

**Census**: **Count** *of population: an official count of a population carried out at set intervals*

# Legislative Invasion of Privacy

**Apportionment is a restriction on the subject matter** of direct taxation,  
specifying **IMPERSONAL INFORMATION from each State**,  
a count of its population (**limited data** - OUR Const, Art 1, Sec 2, Cl 3).

**Bypassing Apportionment**, the Legislative Defendants are  
soliciting **PERSONAL INFORMATION from each American Citizen**.

Reference **Exhibit 012D** - the 2020 Federal Census justifying  
the solicitation of Census data only.

# Legislative Invasion of Privacy

DISREGARD for Constitutionally REQUIRED Apportionment is thereby

**an unauthorized carte-blanche search-and-seizure**

**of ALL Sovereign Americans' PRIVATE data.**

Fundamental to OUR safety and happiness is the RIGHT to Privacy.

Explicitly contradicting OUR Constitution's pre-existing restrictions,

the Legislative Defendants fabricated color-of-authority

for FEDERAL **INVASION OF PRIVACY.**
