

Swelling Size

In 247 years of OUR Evolution, OUR Government has expanded in size while increasingly mocking OUR Constitution, rampantly intruding into every facet of our private lives.

1. Households require dual incomes, stressing parents, diversion from child rearing
2. Deteriorating education and increasing violence
3. “*Privileged*” federal “*2nd class citizen*” businesses, invading globally
4. Prioritizing business profits over “*Unalienable Rights*”
 - Slavery and minimum wage laws circumvented by corporations operating overseas
 - Destroying Homeland employment
 - Failing to impose taxes on global corporations’ foreign imports
 - Privacy Notices - No privacy unless you do something about it
 - Robo calls - prioritizing business over Privacy, “*Do Not Call*” list doesn’t work
 - Open ended contracts with “fine print”, requiring action to cancel instead of expiration dates
 - “No Fault” mandatory car insurance, a tax to cover errant/illegal drivers
 - Mandatory unaffordable health insurance, ridiculous medical and drug costs
 - Tobacco industry - killing people for profit, Government reinforced with higher taxation to victims
 - No protective controls on bank floating rate mortgage and credit card interest policies
 - Laws governing if, how, and when you can sue for medical malpractice
 - Bailing out corporations, funding corporate bonuses with \$\$\$\$billions
5. Fraudulent “*income tax*” (privilege tax) and unconstitutional Social Security tax on Property
6. ARMING IRS collections agents
7. Election Campaign Funds not equally allocated to all candidates, favoring the rich and politically correct candidates, muffling the underdog, warping choice, buying votes.
8. Lobbyists’ agendas - corporate 2nd class voices muffling Sovereign Voice
 - Environmental control blocking our energy independence
 - Gun control on the law abiding instead of harsh punishment for criminals
9. Gambling is illegal unless Government operated - Unconstitutional lotteries, exploitation of addictions
10. Unconstitutional federal land acquisition for conservation, environmental protection, or business use
11. Not securing our borders, fabricating necessity for more control
12. Floating monetary base, corporate Federal Reserve, Fractional Reserve Banking, & Induced Inflation
13. Expending \$\$\$\$billions
 - to “fix?” the world while ignoring our own starving homeless
 - to blow up the world and \$\$\$\$billions more to put it back together
 - “rescuing” Iraq’s people, or was it their oil, and paying exorbitant gasoline prices
14. Terrorism? - Government’s excuse to Invade more Privacy / Territory and trample more “Rights”
 - torturing and imprisoning people for years without trials
 - Wire taps on whims, street cameras, and GPS tracking data from cell phones and vehicles
 - Blanket monitoring of Private financial activity

The world examines OUR Fundamental Laws and Government’s actions.

This is OUR GLOBAL IMAGE, OUR MORALITY, a repeat of the King’s atrocities 247 years ago
