

Universal Supreme Principles - "*Morality and Reason*"

Citation of "*truths*" while only referencing "*self-evident*" unequivocally affirms

"*Morality and Reason*"

is OUR highest intellectual grasp at perfection,
uncodified Supreme Law;

revered by some Supreme Court Judges and Leaders:

*"Besides, the Spanish law is not only contrary to ours,
but is inconsistent with the law of nature,
which is a sufficient reason
for maintaining the supremacy of our own code."*

In re Antelope, **23 US 66**, 74 (**1825**)

Universal Supreme Principles - "*Morality and Reason*"

“As in our intercourse with our fellow-men
certain principles of morality are assumed to exist,
without which society would be impossible,
so certain inherent rights
lie at the foundation of all action,
*and **upon a recognition of them alone can free institutions***
be maintained.

*These **inherent rights** have never been more*
*happily expressed than **in the declaration of independence,***
that new evangel of liberty to the people:

'We hold these truths to be self- evident'
*--that is, **so plain that their truth is recognized upon***
their mere statement”
